- Multiple function operation gets you to the job quicker
- Proportional controls achieve smoother movement for operator comfort
- Automatic Traction Control (ATC) for improved manoeuvrability on off-slab areas

For more details check the JLG Technical Specification Guide or ask your local JLG representative.

Performance Advantages

Provides greater productivity for the operator with the fastest boom speeds in its class.

Automatic Traction Control (ATC) for higher performance

Advanced control system ensures improved traction on uneven surfaces or over floor obstacles.

Articulating Jib*

Allows for greater versatility when positioning the platform around obstacles.

* Models E450AJ and M450AJ only

Multi-Power System

M450A and M450AJ models feature an engine-powered generator that automatically recharges the batteries to help reduce downtime.

Easy to follow layout of controls

Console designed for ease of operation and rapid positioning control.

Operator's Tool Tray

Provides a handy storage area for tools, fasteners and other work materials.
