- Multiple function operation gets you to the job quicker
- Proportional controls achieve smoother movement for operator comfort
 - Automatic Traction Control (ATC) for improved manoeuvrability on off-slab areas
- Narrow chassis width models available to help travel in congested areas

For more details check the JLG Technical Specification Guide or ask your local JLG representative.

Automatic Traction Control (ATC) for higher performance

Advanced control system ensures improved traction on uneven surfaces or over floor obstacles.

Exclusive JibPLUS™ Boom*

Provides a 180 degree range of side-to-side movement in addition to near vertical elevation of 75 degrees for the most versatile positioning capabilities available.

* Models E400AJP, M400AJP, E400AJPh, M400AJPh only

Multi-Power System

M400A and M400AJP models feature an engine-powered generator that automatically recharges the batteries to help reduce downtime.

Narrow chassis width models available

A reduced chassis width helps travel in congested areas and access through doorways.

Easy to follow layout of controls

Console designed for ease of operation and rapid positioning control.

Operator's Tool Tray

Provides a handy storage area for tools, fasteners and other work materials.
